### EDUCATION

**Bachelor of Science in Computer  
Science and Engineering (CSE)**

*Uttara University, Dhaka*

May 2025 – December 2028 (*Expected*)

**Diploma in Computer Technology**

*Jashore Polytechnic Institute, Jashore*

September 2020 – December 2024

### EXPERIENCE

**Backend Developer (Python/Django)**

*Trodad International LTD*

March 2025 – Present

- Built scalable backend systems and APIs using Django & DRF
- Collaborated with UI teams to deliver production-ready features
- Ensured code performance, security, and reusability

### OBJECTIVE

Enthusiastic and skilled Django developer seeking to kickstart my career in web development. Proficient in Python, Django, and related technologies, I am eager to contribute to a dynamic team. Passionate about creating efficient and scalable solutions, I aim to leverage my dedication and expertise to make a meaningful impact at a company and grow as a developer.

### SKILLS AND TECHNOLOGIES

#### Technical Skills:

- **Programming Languages:** Proficient in Python, C, C++, and JavaScript.
- **Data Structures & Algorithms:** Strong understanding of DSA concepts.
- **Back-End Technologies:** Expertise in Django and Django REST framework for building robust and scalable APIs.
- **Front-end Technologies:** Experienced in HTML, CSS, and Bootstrap5.
- **Database Management:** Familiarity with MySQL and PostgreSQL.
- **Version Control:** Working knowledge of Git.

#### Soft Skills:

- Strong problem-solving abilities.
- Excellent debugging skills.
- Effective communication and collaboration in team environments.

### PROJECTS

#### E-commerce Website

[Live Project](#) | [GitHub Repository](#)

- Implemented user registration with email confirmation and secure payment processing to ensure secure access and facilitate safe transactions on the platform.
- Created a product browsing system that allows users to explore various products available on the website.

#### Tuition-Finder App

[Live Project](#) | [GitHub Repository](#)

- Implemented user authentication and search functionality for secure sign-ups, logins, and finding tuition options.
- Added notifications to the processes of post views, likes, comments, and applications to enhance user interaction and streamline communication.

#### Messaging Platform

[Live Project](#) | [GitHub Repository](#)

- Built user authentication and messaging for secure access and seamless communication.
- Added to-do lists, notifications, content posting, plus comment and like features for better user engagement.

#### Quizzes Application

[Live Project](#) | [GitHub Repository](#)

- Implemented secure authentication for user access and data protection.
- Offered technology quizzes and displayed results on user profiles for engagement and feedback.
